

Portrait XO

#Synesthesia #ArtificialIntelligence #Composer #AR #Singer #Innovator

Portrait XO is a singer, songwriter and transdisciplinary artist who creates musical and visual works with traditional and non-traditional methods by utilizing emerging technology such as AR, VR, and AI in her work.

Portrait XO won the first-ever AI music contest “Beats & Bits”, the Jury Vote for ‘most creative use of AI’ at the first Eurovision AI Song Contest and the VUT Indie Award in the category ‘Best Experiment’ for her work in collaboration with Dadabots. She completed her artist residency at Factory Berlin x Sonar+D in 2020 where she researched computational creativity and human-machine collaboration. Portrait XO explores new formats & applications for forward-thinking art and sound. She holds a monthly radio residency with her art & activism collective CO:QUO on Refuge Worldwide Radio, is the founder of SOUND OBSESSED, and a founding member of The IASAS (International Association of Synesthetes, Artists, and Scientists). Being “gifted” with synesthesia, PortraitXO conceptualizes experiences from synesthetic reactions between sound and taste. She currently resides in Berlin.
